NCL Supports Sustainability

Today and for the future, NCL is dedicated to researching and developing products based on sustainable, bio-renewable surfactants, solvents and other natural resources. The results are product that match or improve upon traditional cleaning performance standards, but also move us closer to environmental sustainability.

EARTH SENSE® is a complete program of environmentally responsible, high performance cleaning and maintenance products. These formulations promote a healthier environment and a safer workplace by minimizing risks from chemical ingredients for both maintenance personnel and building occupants.

Healthy, Cost Effective Cleaning Solutions

NCL offers eco-responsible products that are not only cost effective, but provide cleaning effectiveness rivaling traditional cleaning products with a much healthier and more positive environmental profile.

The benefits of Green Cleaning

- Lower Operating Costs
- Improved Safety for Worker/Occupant/Student
- Improved Health for Worker/Occupant/Student
- Improved Satisfaction for Worker/Occupant/Student
- Improved Indoor Air Quality (IAQ)
- Environmental Stewardship

Third Party Certified Solutions

Green Seal™, Inc.

Green Seal™, Inc. is an independent, non-profit organization that uses science based standards and the power of the market place to create a more sustainable world. Green Seal Certification provides credible, objective and unbiased certification whose only purpose is to direct the purchaser to environmentally responsible products and services.

Earth Sense® Seal of Assurance

NCL is committed to developing “green” formulations and leading the sanitary maintenance industry in environmental and health issues.

NCL developed the Earth Sense® Seal of Assurance to assist end-users in recognizing products that have improved environmental and health profiles. The Earth Sense Seal of assurance is awarded to products based on its individual “Eco-Profile” in 3 important criteria; Chemical Ingredients, Human Toxicity, and Environmental impact.
